This title, which complements the volume *Your Private Sky: The Art of Design Science* (see page 44), gives an authentic insight into the development of Fuller's architectonic, technical, & anthropological concepts. Fuller was the epitome of the poet as engineer, the thinker as designer, the artist as researcher. He left behind a voluminous quantity of writing, including texts of visionary importance & penetrating linguistic force, as well as of urgent topicality. The book documents various aspects of Fuller's widely respected texts. These testaments were intended to be shared with the whole world, or, as Fuller coined it in 1950, with "Spaceship Earth."###3-7643-6072-0
