The First American edition of a British best-seller In The Principle of Duty “One of the best thrillers I have read this year.” --Books and Movie Reviews (re Any Means Necessary) In PRIMARY DUTY (The Forging of Luke Stone—Book #6), a ground-breaking action thriller by #1 bestseller Jack Mars, a Supreme Court Justice is taken hostage by a terrorist organization. With a consequential decision before the court, the death of this swing Justice could change the political landscape for decades. Getting him back, against the backdrop of a massive marvel of engineering, would be mission impossible—a mission that only elite Delta Force veteran Luke Stone, 29, and the FBI’s Special Response Team, may be crazy enough to take on. In this action-packed military thriller, filled with shocking twists and turns, the stakes as high as can be, Luke and his team may be up for their most challenging mission yet. PRIMARY DUTY is a standalone, un-putdownable military thriller, a wild action ride that will leave you turning pages late into the night. The precursor to the #1 bestselling LUKE STONE THRILLER SERIES, this series takes us back to how it all began, a riveting series by bestseller Jack Mars, dubbed “one of the best thriller authors” out there. “Thriller writing at its best.” --Midwest Book Review (re Any Means Necessary) Also available is Jack Mars’ #1 bestselling LUKE STONE THRILLER series (7 books), which begins with Any Means Necessary (Book #1), a free download with over 800 five star reviews! So this is Dunhaven? inquired Jack Benson. "Ye-es," slowly responded Jabez Holt, not rising from the chair in which he sat tilted back

against the outer wall on the hotel porch. "It looks like it," muttered Hal Hastings, under his breath. "Doe From the former secretary of defense, a strikingly candid, vivid account of serving Presidents George W. Bush and Barack Obama during the wars in Iraq and Afghanistan. When Robert M. Gates received a call from the White House, he thought he'd long left Washington politics behind: After working for six presidents in both the CIA and the National Security Council, he was happily serving as president of Texas A&M University. But when he was asked to help a nation mired in two wars and to aid the troops doing the fighting, he answered what he felt was the call of duty. No Lifeguard on Duty is the ultimate memoir of sex, drugs, rock & roll, and redemption from modeling icon Janice Dickinson. From her supermodel glory days with Gia Carangi and Christie Brinkley to nights with Warren Beatty, Jack Nicholson, and Sylvester Stallone; from a dizzying drug and alcohol habit to three failed marriages; from cavorting around the globe to struggling to make it in Los Angeles as a working mom on America's Next Top Model and The Janice Dickinson Modeling Agency, Janice tells all. "The war in Vietnam was not lost in the field, nor was it lost on the front pages of the New York Times or the college campuses. It was lost in Washington, D.C." -- H. R. McMaster (from the Conclusion) Dereliction Of Duty is a stunning new analysis of how and why the United States became involved in an all-out and disastrous war in Southeast Asia. Fully and convincingly researched, based on recently released transcripts and personal accounts of crucial meetings, confrontations and decisions, it is the only book that fully re-creates what happened and why. It also pinpoints the policies and decisions that got the United States into the morass and reveals who made these decisions and the motives behind them, disproving the published theories of other historians and excuses of the participants. Dereliction Of Duty covers the story in strong narrative fashion, focusing on a fascinating cast of characters: President Lyndon Johnson, Robert McNamara, General Maxwell Taylor, McGeorge Bundy and other top aides who deliberately deceived the Joint Chiefs of Staff, the U.S. Congress and the American public. Sure to generate controversy, Dereliction Of Duty is an explosive and authoritative new look at the controversy concerning the United States involvement in Vietnam. The report describes research conducted in job analysis. This was performed as the initial step in the development of systems engineering of leadership training courses in the Infantry Officer Candidate (IOC) program. The sample population consisted of 385 officers attending the Infantry Officer Advanced Course, all graduates of the IOC program. Written records of their duty assignments were taken from the Officer Qualification record, and their duty positions and MOS numbers were tabulated and assigned to fewer, more general categories. Results showed initial assignments included 66 different duty positions and 47 different MOS numbers, and that the series of assignments throughout the mandatory tour of duty produced tour profiles for the majority of individuals. (Author). The Federal Bureau of Investigation's Uniform Crime Reports Section selected and analyzed 51 incidents of police officer killings in order to evaluate the psychology of the offender, the behavior of the police officer, and circumstances in which the police officer lost his or her life. The study was conducted over a 3-year period; the 51 incidents resulted in the death of 54 police officers and involved 50 offenders. Results demonstrated that, while no single offender profile could be established, most killers of police officers had been diagnosed as having some type of personality disorder. Behavioral descriptors of victims were frequently similar in that they were good-natured and more conservative than their fellow officers in the use of physical force. The incidents themselves revealed that killings were often facilitated by some type of procedural miscue (e.g., improper approach to a vehicle). Type of assignment, circumstances at the scene of an encounter, weapons involved, and the environment in which events occurred all played a role in the preponderance of police officer deaths in the South. The report presents extensive information on the victims, offenders, and incidents studied. It identifies personality types of offenders, provides guidance on how individuals of a given personality type interact with authority figures, and offers approaches to interrogation. The report also points out specific areas where law enforcement training and procedures may be improved. Appendixes contain the study methodology and a description of personality types. Under the Goldwater-Nichols Act of 1986, several changes were instituted by Congress in an effort to reform the U.S. military. Title IV, Joint Officer

Management, of the Act was aimed at reforming the officer development of the services in an effort to eliminate the parochial service dispositions that had previously plagued U.S. military efforts. Title IV instituted policies to provide officers with joint education and joint experience in an effort to develop officers with a multi-service or joint perspective. In an effort to provide senior officers with joint experience, all officers promoted to the rank of brigadier general or rear admiral (07) must have completed a joint duty assignment prior to promotion. This dissertation looks specifically at the joint duty promotion requirement instituted under Title IV in an effort to analyze the U.S. military's ability to implement a congressional mandate. The implementation of the joint duty assignment as a promotion requirement has been a source of concern for both the services and congressional policymakers. Leslie E. Gehres rose from the lowest enlisted rank to rear admiral. He was a by-the-book, no-nonsense officer who achieved many significant accomplishments during his thirty-two-year U.S. Navy career. He was the first enlisted sailor to rise to command a super-aircraft carrier, the USS Franklin CV-13. During a fierce naval battle off the coast of Japan on March 19, 1945, through his outstanding leadership and the work of his skilled crew, he saved his ship and the lives of many sailors. The men of the Franklin became the most decorated crew in the history of the U.S. Navy.

A RADIO 4 BOOK OF THE WEEK 'A love letter to police officers and the most vulnerable people they protect and serve' CHRISTIE WATSON, author of THE LANGUAGE OF KINDNESS 'Extraordinary . . . urgent and compelling. We all have lessons to learn from this book' SIMON MAYO There is much more to policing than tackling crime. Every one of us will need the help of an officer at some point in our lives, often when we're at our most vulnerable. Yet how much do we really know about the realities of policing? Using real life stories from his twenty-five years of service with the Metropolitan Police, John Sutherland invites us beyond the cordon tape to bear witness to all he has seen. In doing so, he offers a hopeful vision for how we can tackle some of the biggest challenges facing society today. A fascinating insight into the true history of British police corruption, for fans of the hit BBC 1 drama. For more than a century, police officers used their uniforms to control and bully criminals, which in turn led to wholesale bribery and corruption. From Victorian times up to the 1950s, this crooked atmosphere tainted the UK police image of the 'friendly Bobby'. Then came the 1960s and 1970s when the Great Train Robbery and other bigtime heists changed the rules of the 'game' forever. It was like the Wild West out there. No one knew who were the good guys and who were the bad guys anymore. By the early 1980s, corruption was endemic amongst London's vast force of detectives. It was only now that Police commissioners across the nation finally started to tackle endemic, across the board corruption. The hit BBC show has brought these stories back to the fore and in The Line of Duty - The Real Story we go behind the contemporary headlines to explore the real inspiration behind the hit show, looking back at the history of corruption in the police, and the anti-corruption units that were set up to sniff out the bent coppers among the good. Referencing real-life historic and notable cases and people, from a range of sources and first-person interviews, The Line of Duty - The Real Story tells the truth behind the fiction, and its hard-hitting impact on real life modern policing. When the news of the raid on Osama Bin Laden's compound broke, the SEAL team member that stole the show was a highly trained canine companion. Throughout history, dogs

have been key contributors to military units. Dorothy Hinshaw Patent follows man's best friend onto the battlefield, showing readers why dogs are uniquely qualified for the job at hand, how they are trained, how they contribute to missions, and what happens when they retire. With full-color photographs throughout and sidebars featuring heroic canines throughout history, *Dogs on Duty* provides a fascinating look at these exceptional soldiers and companions. Peter and Jude are the first husband and wife team to be recruited into a police undercover drug operation. Peter becomes as suspicious of the police as he is frightened of the dealers he is betraying. Describes the ways in which dogs are bred and trained for such careers as livestock guardian, herder, helper for the disabled, sled-puller, and entertainer. Nili develops a novel conception of 'the people', both as an agent with its own moral integrity, and as an owner of public property. Exploring problems central to present-day politics, this non-technical book will appeal to political theorists, but also to readers in public policy, area studies, law, and across the social sciences. This book offers students a philosophical introduction to the ethical foundations of business management. It combines lessons from Kant with virtue ethics and also touches upon additional approaches such as utilitarianism. At the core of the book lies the concept of the nexus of imperfect managerial duty: building and reinforcing the virtuous managerial team, engaging in reasoned discourse among all stakeholders, and diligently pursuing business responsibilities, including the creative efforts necessary for modern organizations. Case illustrations of these applications are presented throughout the book, including chapter appendices. Ancillary videos, test and answer banks and sample syllabi are available online via the author's website. The question, 'Why should I obey the law?' introduces a contemporary puzzle that is as old as philosophy itself. The puzzle is especially troublesome if we think of cases in which breaking the law is not otherwise wrongful, and in which the chances of getting caught are negligible. Philosophers from Socrates to H.L.A. Hart have struggled to give reasoned support to the idea that we do have a general moral duty to obey the law but, more recently, the greater number of learned voices has expressed doubt that there is any such duty, at least as traditionally conceived. The thought that there is no such duty poses a challenge to our ordinary understanding of political authority and its legitimacy. In what sense can political officials have a right to rule us if there is no duty to obey the laws they lay down? Some thinkers, concluding that a general duty to obey the law cannot be defended, have gone so far as to embrace philosophical anarchism, the view that the state is necessarily illegitimate. Others argue that the duty to obey the law can be grounded on the idea of consent, or on fairness, or on other ideas, such as community. "Another winner...Todd again excels at vivid atmosphere and the effects of war in this specific time and place. Grade: A." —Cleveland Plain Dealer "Readers who can't get enough of Maisie Dobbs, the intrepid World War I battlefield nurse in Jacqueline Winspear's novels...are bound to be caught up in the adventures of Bess Crawford." —New York Times Book Review Charles Todd, author of the resoundingly acclaimed Ian Rutledge crime novels ("One of the best historical series being written today" —Washington Post Book World) debuts an exceptional new protagonist, World War I nurse Bess Crawford, in *A Duty to the Dead*. A gripping tale of perilous obligations and dark family secrets in the shadows of a nightmarish time of global conflict, *A Duty to the Dead* is rich in suspense, surprise, and the impeccable period atmosphere that has become a Charles Todd trademark. Retired press spokesman Dickie Arbiter recounts his experiences as a Buckingham Palace press secretary for Queen Elizabeth II, beginning with his appointment in 1988 until his retirement in 2000. Imagine you are 35 years old, fit and healthy. Now imagine waking up and being unable to move or talk. How would you feel if you could see and hear perfectly, if you were aware of everything going on around you, but couldn't show it? How would anyone know you were even there? At the start of April 2015, this terrifying scenario became a reality for Clodagh Dunlop. At 35, she suddenly suffered a brainstem stroke which left her on life support. She awoke with locked-in syndrome. Clodagh, a police officer in Northern Ireland adored her job, loving the challenges of the intense unique working environment. Clodagh lived life to the full, a health fanatic she ran 4 miles every day before a gym session and enjoyed skydiving and adrenalin sports. When Clodagh awoke from an induced coma two days after the stroke she couldn't move, speak or even breath on her own. Paralysed from the

top of her head to the soles of her feet, every muscle unusable apart from her eyes, she could blink. Terrified at finding herself completely helpless, Clodagh had to find the courage to break out of locked-in syndrome. She had to believe in her ability to recover against all the odds, to walk and talk again. In this book, Clodagh documents the darkest moments of her very rare recovery from this devastating condition. Her raw honesty about this true life journey will make you laugh and cry.
