Following on from Writers at Work: The Paragraph and Writers at Work: the Short Composition, Writers at Work: The Essay will teach the basics of academic essay writing to intermediate-level students. In Writers at Work: The Essay, college and university students use the process approach to write different genres of essays common at the post-secondary level, the most important being expository writing, persuasive writing, and timed essay exams. Each chapter uses the same five-step approach to writing that is used in the two lower-level books. In each chapter, students analyze a model essay, noticing key organizational and linguistic features; brainstorm ideas; write multiple drafts; revise their work; engage in peer reviews; and share their finished work. Chapters recycle and build upon previously taught material. Lecturers, why waste time waiting for the post to arrive? Request and receive your e-inspection copy today! "This thesis contains three essays that study how people behave in a social context. The first two essays are on cooperation and networks. Chapter 2 investigates a mechanism to facilitate public good provision in networks. It relies on the idea that people compete for attractive network positions (or status) and that they do so by creating public goods. Chapter 3 studies how power asymmetries affect cooperation in groups. Two types of power are studied: power from being central in a network and power from having the authority to distribute the group surplus. The third essay, chapter 4, studies a possible explanation why people experience social emotions such as anger towards others."--Samenvatting auteur. . "Essays in Love will appeal to anyone who has ever been in a relationship or confused about love. The book charts the progress of a love affair from the first kiss to argument and reconciliation, from intimacy and tenderness to the onset of anxiety and heartbreak. The work's genius lies in the way it minutely analyses emotions we've all felt before but have perhaps never understood so well: it includes a chapter on the anxieties of when and how to say 'I love you' and another on the challenges of disagreeing with someone else's taste in shoes. While gripping the reader with the talent of a great novelist, de Botton brings a philosopher's sensibility to his analyses of the emotions of love, resulting in a genre-breaking book that is at once touching and thought-provoking."--Publisher's website. the parallel (but not simultaneous) evolution of the two arts in the West, as well as the particular wisdom the novel offers about human existence. The Decay of Lying: An Observation By Oscar Wilde "The Decay of Lying - An Observation" is an essay by Oscar Wilde included in his collection of essays titled Intentions, published in 1891. This is a significantly revised version of the article that first appeared in the January 1889 issue of The Nineteenth Century. Wilde presents the essay in a Socratic dialogue between with Vivian and Cyril, two characters named after his own sons. Their conversation, though playful and whimsical, promotes Wilde's view of Romanticism over Realism. Vivian tells Cyril of an article he has been writing called "The Decay Of Lying: A Protest". According to Vivian, the decay of Lying "as an art, a science, and a social pleasure" is responsible for the decline of modern literature, which is excessively concerned with the representation of facts and social reality. He writes, "if something cannot be done to check, or at least to modify, our monstrous worship of facts, Art will become sterile and beauty will pass away from the land." Moreover, Vivian defends the idea that Life imitates Art far more than vice versa. Nature, he argues, is no less an imitation of Art than Life. Vivian also contends that Art is never representative of a time or place: rather, "the highest art rejects the burden of the human spirit [...] She develops purely on her own lines. She is not symbolic of any age." Vivian thus defends Aestheticism and the concept of "art for art's sake". At Cyril's behest, Vivian briefly summarizes the doctrines of the "new aesthetics" in the following terms: Art never expresses anything but itself. All bad art comes from returning to Life and Nature, and elevating them into ideals. Life imitates Art far more than Art imitates Life. It follows as a corollary that external Nature also imitates Art. Lying, the telling of beautiful untrue things, is the proper aim of Art. The essay ends with the two characters going outside, as Cyril asked Vivian to do at the beginning of the essay. Vivian finally complies, saying that twilight nature's "chief use" may be to "illustrate quotations from the poets." As Michèle Mendelssohn points out, "in an era when sociology was still in its infancy, psychology wasn't yet a discipline, and theories of performativity were still a long way off, Wilde's essay touched on a profound truth about human behaviour in social situations. The laws of etiquette governing polite society were, in fact, a mask. Tact was merely an elaborate art of impression management." It's a platitude - which only a philosopher would dream of denying - that whereas words are connected to what they represent merely by arbitrary conventions, pictures are connected to what they represent by resemblance. The most important difference between my portrait and my name, for example, is that whereas my portrait and I are connected by my portrait's resemblance to me, my name and I are connected merely by an arbitrary convention. The first aim of this book is to defend this platitude from the apparently compelling objections raised against it, by analysing depiction in a way which reveals how it is mediated by resemblance. It's natural to contrast the platitude that depiction is mediated by resemblance, which emphasises the differences between depictive and descriptive representation, with an extremely close analogy between depiction and description, which

emphasises the similarities between depictive and descriptive representation. Whereas the platitude emphasises that the connection between my portrait and me is natural in a way the connection between my name and me is not, the analogy emphasises the contingency of the connection between my portrait and me. Nevertheless, the second aim of this book is to defend an extremely close analogy between depiction and description. The strategy of the book is to argue that the apparently compelling objections raised against the platitude that depiction is mediated by resemblance are manifestations of more general problems, which are familiar from the philosophy of language. These problems, it argues, can be resolved by answers analogous to their counterparts in the philosophy of language, without rejecting the platitude. So the combination of the platitude that depiction is mediated by resemblance with a close analogy between depiction and description turns out to be a compelling theory of depiction, which combines the virtues of common sense with the insights of its detractors. George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — Irish Times plan, write and revise your essay draft -- Essays in Radical Empiricism by William James (1842-1910) is a collection edited and published posthumously by his colleague and biographer Ralph Barton Perry in 1912. It was assembled from ten out of a collection of twelve reprinted journal articles published from 1904-1905 which James had deposited in August, 1906, at the Harvard University Library and the Harvard Department of Philosophy for supplemental use by his students. Perry replaced two essays from the original list with two others, one of which didn't exist at the earlier time. "Gilbert and Gubar have written a pivotal book, one of those after which we will never think the same again."—Carolyn G. Heilbrun, Washington Post *Book World To the Lighthouse* (5 May 1927) is a novel by Virginia Woolf. A landmark novel of high modernism, the text, centering on the Ramsay family and their visits to the Isle of Skye in Scotland between 1910 and 1920, skillfully manipulates temporality and psychological exploration. *To the Lighthouse* follows and extends the tradition of modernist novelists like Marcel Proust and James Joyce, where the plot is secondary to philosophical introspection, and the prose can be winding and hard to follow. The novel includes little dialogue and almost no action; most of it is written as thoughts and observations. The novel recalls the power of childhood emotions and highlights the impermanence of adult relationships. One of the book's several themes is the ubiquity of transience. Tells a story about the strange relationship of two migrant workers who are able to realize their dreams of an easy life until one of them succumbs to his weakness for soft, helpless creatures and strangles a farmer's wife.
