Find out all this and more in the climactic eighth volume of If It's For My Daughter, I'd Even Defeat a Demon Lord! Does life have meaning? What is flourishing? How do we attain the good life? Philosophers, and many others of us, have explored these questions for centuries. As Eva Feder Kittay points out, however, there is a flaw in the essential premise of these questions: they seem oblivious to the very nature of the ways in which humans live, omitting a world of co-dependency, and of the fact that we live in and through our bodies, whether they are fully abled or disabled. Our dependent, vulnerable, messy, changeable, and

embodied experience colors everything about our lives both on the surface and when it comes to deeper concepts, but we tend to leave aside the body for the mind when it comes to philosophical matters. Disability offers a powerful challenge to long-held philosophical views about the nature of the good life, what provides meaning in our lives, and the centrality of reason, as well as questions of justice, dignity, and personhood. These concepts need not be distant and idealized; the answers are right before us, in the way humans interact with one another, care for one another, and need one another—whether they possess full mental capacities or have cognitive limitations. We need to revise our concepts of things like dignity and personhood in light of this important correction, Kittay argues. This is the first of two books in which Kittay will grapple with just how we need to revisit core philosophical ideas in light of disabled people's experience and way of being in the world. Kittay, an award-winning philosopher who is also the mother to a multiply-disabled daughter, interweaves the personal voice with the philosophical as a critical method of philosophical investigation. Here, she addresses why cognitive disability can reorient us to what truly matters, and questions the centrality of normalcy as part of a good life. With profound sensitivity and insight, Kittay examines other difficult topics: How can we look at the ethical questions regarding prenatal testing in light of a new appreciation of the personhood of disabled people? What do new possibilities in genetic testing imply for understanding disability, the family, and bioethics? How can we reconsider the importance of care, and how does it work best? In the process of pursuing these questions, Kittay articulates an ethic of care, which is the ethical theory most useful for claiming full rights for disabled people and providing the opportunities for everyone to live joyful and fulfilling lives. She applies the lessons of care to the controversial alteration of severely cognitively disabled children known as the Ashley Treatment, whereby a child's growth is halted with extensive estrogen treatment and related bodily interventions are justified. This book both imparts lessons that advocate on behalf of those with significant disabilities, and constructs a moral theory grounded on our

ability to give, receive, and share care and love. Above all, it aims to adjust social attitudes and misconceptions about life with disability. Inspiration for the motion picture streaming August 1 on Pure Flix! Drawing on her thirty years' experience practicing pediatric and adolescent medicine, teen health expert Dr. Meg Meeker explains why an active father figure is maybe the single most important factor in a young woman's development. From cradling his newborn to walking her down the aisle, a father must relish his paramount responsibility—guiding the course of his daughter's life. Meeker reveals • how a man can become a "strong father" • how a father's guidance influences every part of a woman's life, from her self-respect to her perspective on drugs, alcohol, and sex • how to lay down ground rules that are respected without creating distance in your relationship with your daughter • why you need to be your daughter's hero • the mistakes most fathers make and their serious consequences • how to help daughters make their own good decisions and avoid disastrous mistakes • how a father's faith will influence his daughter's spiritual development • how to get through to you daughter, even during her toughest don't-talk-to-me years • true stories of daughters who were on the wrong path—and how their fathers helped to bring them back Learn how to grow, strengthen, or rebuild your relationship with your daughter to better both your life and hers in the bestselling *Strong Fathers, Strong Daughters: 10 Secrets Every Father Should Know*. American national trade bibliography. Decades of research have demonstrated that the parent-child dyad and the environment of the family—“which includes all primary caregivers”—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family

environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States. Through My Daughter's Eyes is a one-of-a-kind, much-needed look at what it means to come of age in a military family today. Our middle school heroine Abbie is wiser than her years—and most of the adults in her life, for that matter. Equal parts Flavia de Luce and Harriet the Spy, Abbie describes her life this way: "My best friend and fellow Army-brat Megan and I had a plan to get through Dessau Middle School (Go Diamondbacks!) by being just good enough to not get noticed and not so good we'd be picked out for any attention. And it worked—for a while. "Then my dad got deployed—again—and mom fell apart, leaving

me in charge of my own life and, it seemed, everyone else's. When Dad came home after about a hundred-million years, he wasn't much help, either. I know war is terrible, but it's not like he talks to me about it, so how was I supposed to know what to do? He's not even the same dad that left. "I turned to my grandpa for help, but in the end, I had to let go of being the glue that kept everything together. I had to learn to give my parents room to save themselves—and our family." "Through My Daughter's Eyes," based on a story by Dallas Burgess, draws from many personal, first-hand accounts and real-world experiences of soldiers and their children, providing a voice for the children of war. This novel, and the upcoming film production, helps to fund charitable works benefiting these children. Welcome aboard Pacific Air Flight 385, with nonstop service from Seattle to Honolulu. 'You are here for the rest of your life. Do you understand? You are not leaving Iran. You are here until you die.' Betty Mahmoody and her husband, Dr Sayyed Bozorg Mahmoody ('Moody'), came to Iran from the USA to meet

Moody's family. With them was their four-year-old daughter, Mahtob. Appalled by the squalor of their living conditions, horrified by what she saw of a country where women are merely chattels and Westerners are despised, Betty soon became desperate to return to the States. But Moody, and his often vicious family, had other plans. Mother and daughter became prisoners of an alien culture, hostages of an increasingly tyrannical and violent man. Betty began to try to arrange an escape. Evading Moody's sinister spy network, she secretly met sympathisers opposed to Khomeini's savage regime. But every scheme that was suggested to her meant leaving Mahtob behind for ever... Eventually, Betty was given the name of a man who would plan their perilous route out of Iran, a journey that few women or children had ever made. Their nightmare attempt to return home began in a bewildering snowstorm... Writing in response to his ten-year-old daughter's questions about racism, the author distills the complicated issue and offers parents advice on how to explain bigotry to their own children. As soon as we sat on the ride I knew something was wrong. I couldn't relax. I couldn't hear the theme park music, the giggles of my two other children. I'd left my baby in someone else's care. And I knew I'd made a mistake... With her two beautiful children and newborn baby Ella, Lily's life is full of love and laughter. She gave up her job to be a stay-at-home mother, and though she sometimes envies the freedom of best friend Hannah, Lily wouldn't trade it for anything. But Lily's world implodes when Hannah disappears with Ella one day, and Lily fears from the text message she receives that Hannah doesn't intend to come back: You don't deserve her. It's true that Lily has been keeping secrets about her marriage from Hannah, ones she thought only she and her husband knew. Suddenly Lily realises that there are things she doesn't know about Hannah too - and that by keeping her husband's secrets, she might pay the ultimate sacrifice. "We get a look at Dale and Latina's honeymoon after their wedding. Just what sort of antics will occur when they stop in a troubled hot spring town?"--Back cover. "Illuminates with cutting truth the layers of longing and grief which underlie a transracial adoption . . . sharply written, intense, and page-turning." —Randy Susan Meyers, bestselling author of *Waisted* Rowan Kelly knows she's lucky. After all, if she hadn't been adopted, she could have spent her days in a rice paddy, or a windowless warehouse assembling iPhones—they make iPhones in Korea, right? Either way, slowly dying of boredom on Long Island is surely better than the alternative. But as she matures, she realizes that she'll never know if she has her mother's eyes, or if she'd be in America at all had her adoptive parents been able to conceive. Rowan sets out to prove that she can be someone's first choice. After running away from home—and her parents' rules—and ending up beaten, barefoot, and topless on a Pennsylvania street courtesy of Bad Boy Number One, Rowan attaches herself to Never-Going-to-Commit. When that doesn't work out, she fully abandons self-respect and begins browsing Craigslist personals. But as Rowan

dives deeper into the world of casual encounters with strangers, she discovers what she's really looking for. With a fresh voice and a quick wit, Lauren J. Sharkey dispels the myths surrounding transracial adoption, the ties that bind, and what it means to belong. A Finalist for Foreword Review's 2020 INDIES Book of the Year Award in Adult Fiction—Multicultural "Stirring . . . a moving account of Rowan's difficult reckoning with her identity. This is an adept portrayal of the long shadow of abuse and the difficulty of being an adoptee." —Publishers Weekly ****THE SUNDAY TIMES BESTSELLER**** Begin the new year with a fresh perspective on economics, capitalism, and the society we live in. Yanis Varoufakis, world renowned economist, writes to his daughter to teach her the hazards of capitalism. 'Why is there so much inequality?' asked Xenia to her father. Answering her questions in a series of accessible and tender letters, Varoufakis educates her to what economics and capitalism is and why it is so dangerous. Taking from memories of her childhood and a variety of well-known tales - from Oedipus and Faust to Frankenstein and The Matrix - Varoufakis turns *Talking To My Daughter* into an enjoyable and engaging read, without ever shying from the harder truths. Greece's former finance minister explains everything you need to know to understand why economics is the most important drama of our times. In answering his daughter's deceptively simple questions, Varoufakis disentangles our troubling world with remarkable clarity and child-like honesty, as well as inspiring us to make it a better one. 'Utterly accessible, deeply humane and startlingly original - a potent democratic tool at the perfect time' Naomi Klein *The Prize-Winning International Bestseller* 'I can't help but be moved by a story about women meeting, fighting, helping each other, looking after one another, and raising their voices against the prejudice and criticism they are subject to.' Cho Nam-joo, author of *Kim Jiyoung, Born 1982* When a mother allows her thirty-something daughter to move into her apartment, she wants for her what many mothers might say they want for their child: a steady income, and, even better, a good husband with a good job with whom to start a family. But when Green turns up with her girlfriend, Lane, in tow, her

mother is unprepared and unwilling to welcome Lane into her home. In fact, she can barely bring herself to be civil. Having centred her life on her husband and child, her daughter's definition of family is not one she can accept. Her daughter's involvement in a case of unfair dismissal involving gay colleagues from the university where she works is similarly strange to her. And yet when the care home where she works insists that she lower her standard of care for an elderly dementia patient who has no family, who travelled the world as a successful diplomat, who chose not to have children, Green's mother cannot accept it. Why should not having chosen a traditional life mean that your life is worth nothing at all? In *Concerning My Daughter*, translated from Korean by Jamie Chang, Kim Hye-jin lays bare our most universal fears on ageing, death, and isolation, to offer finally a paean to love in all its forms. This biography heaps praise on the railroad mogul Jay Gould. It also includes brief biographies of some of his well-known business associates.
