What Is a Real Man? Have you ever wanted to know what a Real man is but were afraid to ask? Are you just like most people who were taught one thing but later found out that the information was inaccurate? In Proverbs 4: 7, scriptures say we should get wisdom and with all our getting, we should get an understanding. In this book, William McLean reveals from the scriptures what a real man is and the spiritual principles that apply when a man takes his place. In addition, how it affects Gods original order. As you read What is a Real Man you will learn: The difference between a boy and a man Gods original intent for creating man Why men are attacked and the effects Dominion Plus much more! Humorous and conversational, while at the same time theological and practical, The God Who Is Real poignantly addresses the most compelling question of human history: Does a personal, caring God exist? The author answers this through a series of "stories," or "episodes," which, taken together, form an autobiography that testifies to the reality of a sovereign God who desires an intimate, loving relationship with His creation. The Lord's care and miraculous provision are chronicled throughout the author's life, from his conversion as a young man, throughout his life as a preacher and missionary, to his return to Canada in 2009. The book is marked by honesty and transparency. Readers witness the spiritual highs of ministry and a close walk with the Saviour, along with the lows of everyday life. Beginning with these two fundamental questions, *The Real is not the Rational* searches back into the history of philosophy for the development of these issues. It presents selected key stages in the history of the rationalist tradition, indicating the direction in which rationalism sought what is real. The role of non-rationalist tendencies within rationalism and the shift to an emphasis on the irrational in the nineteenth century are also examined. The study seeks alternatives to the rational-irrational dilemma—alternatives found in Heidegger, who takes the non-rational seriously. It also looks for alternatives in Buddhism, which dissolves the dichotomy between the rational and the irrational since its prime concern was never with reason, but has always been soteriological.
