Global mobile satellite communications (GMSC) are specific satellite communication systems for maritime, land and aeronautical applications. It enables connections between moving objects such as ships, vehicles and aircrafts, and telecommunications subscribers through the medium of communications satellites, ground earth stations, PTT or other landline telecommunications providers. Dorothy Richardson's "Pilgrimage," a thirteen volume epic novel, was one of the first turn-of-the-century 'experiments' in the stream-of-consciousness. Richardson was a contemporary of Proust, Joyce, and Virginia Woolf, who referred to herself as an 'intermittent student' of Richardson's. Richardson also wrote about the early silent cinema for the journal "Close Up," published by H.D. Bryher and Macpherson. In her writings on the film, as well as in her novel writing, Richardson explores what she sees as a direct connection between issues of gender and the necessity for formal literary innovation. This book investigates the way in which Richardson's focus on these issues required that she invent new theories of reading and viewing practices, and a new profile for the page of the novel - punctuated and composed as never before. (May) In the mid-nineteenth century the indigenous Potter Valley Pomo resided in large sedentary villages in Potter Valley, California, and travelled seasonally throughout an extensive territory in what are now Mendocino and Lake Counties. Beginning in 1890 what would become nearly a half century of ethnographic research among members of this community, homeopathic doctor and amateur anthropologist John W. Hudson witnessed the aftermath of their dislocation and dispersal from the valley following the arrival of non-indigenous settlers. Although never published, his fieldnotes contained an unparalleled dataset on plant use by a single local indigenous community in California. In this richly illustrated monograph the author presents and interprets this historical ethnobotanical information in order to provide new insights into Potter Valley Pomo society and its relationship to the Northern California landscape. Thoroughly revised and updated for 2002, the guide that has helped thousands of car and truck buyers choose the right vehicle is now better than ever. Includes full-color photos plus easy-to-read comparison charts, graphs, and specifications.
